*Dear Parents & Campers,*

*Welcome to the Black Bear Lake experience! As you turn from Stage Coach Road into the camp, you can feel the history of Black Bear Lake. The 100 year old pine trees shade your way to the Lakota Lodge. There is no place like Black Bear Lake in all of central New Jersey.*

*The first question we are often asked when a family visits our campus is "What was this place originally?" Long after the Black Bears moved on, the Reisinger family established the 38 acres as a lake house so their children could swim and fish among the rustic surroundings. We continue this tradition for future generations to discover and enjoy.*

*We have created a unique approach to camping that emphasizes both program and the individual. Our talented staff of teachers, coaches and professionals help guide the campers in choosing from an almost unlimited selection of activities. Each camper creates a schedule to reflect their individual talents and interests so the summer will be filled with new experiences, fun group activities and individual achievement.*

*Black Bear Lake is a special place. We limit our enrollment to focus on the needs of each camper - so call today for a tour of the camp everybody is talking about. We look forward to welcoming you to the Black Bear Lake family!*

*Sincerely,*

*Mark & Melissa Magid  
Owners/Directors*
